ACTUAL SCREENS

If seal is broken, DO NOT PURCHASE.

Go where few have survived to take on a young sorcerer's one-way mission through magic, potions and spells in this mystical sensation from APOGEE. Unique creatures and enemies, from huge levels of 256-color, 360-degree parallax-scrolling VGA graphics, will stop at nothing to prevent you from getting your wizard powers. Exciting puzzles built into each level structure gives this game unparalleled variety and excitement!

WIZ TECHNOLOGY, INC.® is your source for the most Current and Highest Rated Shareware or Freeware programs for IBM® & compatible computers. We have been authorized by each Shareware author to distribute their programs. If you find a program to be of use, you are expected to send in the requested modest registration fee. Registration entitles you to additional updates, benefits and support depending on the author. Your support of the authors allows them to develop better products in the future. Complete documentation and instructions, when required, are located on the disk.
